

HOME

SPARK POWER SYSTEMS FZC. was established within the Makers Holdings Ltd. and incorporates the brand of 'SPARK' generator sets from Europe. For more than a decade, we have been working closely with our business partners to deliver high quality systems and services in the U.A.E and worldwide.

Our wide ranging services include design, installation and replacements of generator systems and also have a strong competitive edge over our competitors on Rentals of the systems.

OUR MISSION

Spark Power System aims to deliver excellent service to our customers by providing secure power systems along with a reliable power backup source for different industries.

Our company focuses on client satisfaction and work efficiently to ensure their needs and expectations are met. With exceptional proficiency and knowledge, we have expanded our services to a wide-ranging clientele on a global level.

OUR VALUES

Our core belief system is to deliver high end products to our clients by maintaining quality and standard in all our endeavors.

We believe in communicating effectively with our customers to meet their requirements and achieve their complete satisfaction.

POWER DIVISION

Spark Power System has been successfully delivering high quality systems and services for over 35 years in the UAE and worldwide. We provide critical power supplies at all conditions and work towards delivering secure power systems and solutions.

Our Generators are tested and tailored to operate in the harsh climatic conditions that prevail in the Middle East.

Our Italian partner develops, produces, sells and installs systems for the generation of electricity for a total of 700MW per year.

Renowned for both technical excellence and operational expertise, our company specializes in protecting the most demanding applications. We are prominent in several sectors including Medical, Financial services, Power utilities as well as Oil & Gas and Telecommunications.
